

## Book presentation

### ***El Regalo de Prometeo: ensayos sobre fotografía***

**by Dr. Jorge Crespo Armáiz**

On March 20th, the latest publication of Dr. Jorge Crespo Armáiz, ***El regalo de Prometeo: ensayos sobre fotografía*** was formally presented in an activity held in the Piñero Reading Room of the Library of the Universidad del Este. Dr. Manuel S. Almeida served as the moderator for the activity and professors Lanny Thompson (University of Puerto Rico) and Jaime Partsch (Universidad del Este) carried out the presentation. Each one pointed out some of the most interesting aspects of this book which includes a collection of essays that describe many of the controversies and interpretations that the art and science of photography have provoked over the last 150 years. Each of the six essays included in the text analyzes the esthetic, philosophical, historical, political and cultural contexts that have surrounded the modern development of photography.
