

Our Second Season Begins

On August 28th, the Piñero Library's program of interviews and analysis, "Utopística", will begin its second season on YouTube. With the experience of our first successful season behind us, we have begun the process of elaborating the calendar of topics and interviews that will contribute to the goal of this project which is: to analyze our present-day reality in order to begin to construct alternatives for the future.

We have already begun the process of interviewing a series of people with unique experiences. During the first three programs of this semester our visitors will include:

- Erika Fontanez who will speak about "A critical view of judicial processes"
- Dr. Astrid Santiago Orria, who will discuss the topic of "The challenges for the aging in contemporary Puerto Rico".
- Drs. Jorge Colón Rivera, Félix Córdova Iturregui and José Córdova Iturregui, will discuss, "The beginnings of ecological awareness in Puerto Rico".

We invite our friends to enjoy these programs on our channel in [YouTube](#) or through our page on [Facebook](#).

En defensa de la inutilidad: Protesta y protagonismo en Puerto Rico

Conferencia a cargo de:

Dr. Guillermo Rebollo Gil

Catedrático Auxiliar y Profesor Investigador, Escuela de Ciencias Sociales y Humanas, Universidad del Este

Progress on display

Anyone who transits the Baldorioty de Castro Avenue and passes the campus of the *Universidad del Este* cannot help but be impressed by the speed with which the structure of the future Piñero Library is taking shape. Without a doubt, this 14,000 square building will give the university a new “public face” and will provide ample space for research, academic activities, cultural programming and community service. Work is already underway to organize the programming which will take place at the new library. For images and more details, consult our page in [Facebook](#).
